MEET OUR TEAM

Uncommon App is a New York-based boutique educational consulting service. Founded by Dr. Elena Polenova in 2017, Uncommon App has helped over 100 students earn undergraduate acceptances to Ivy League schools, competitive private universities, small liberal arts colleges, and outstanding public institutions.

Uncommon App operates behind a crucial principle: it is far more important to find the right match than to simply win a slot at any one institution. The volatile landscape of college admissions is intimidating, and at times unpredictable and incomprehensible. In moving away from the clichés of "target" institutions and "safety" schools, Elena helps to reorient students with a very simple question: where would you be happy to attend?
